The impact of the Charitable Feeding Ordinance on EaDo has been significant, and is measurable.

Before the passing of the ordinance in 2012, Our EaDo street maintenance crews were picking up over 16,000 lbs of trash every month. After passing and enforcement, it has been reduced by nearly half.

Monthly EaDo trash pickup numbers per month from 2012 are below:

Month	Total Trash (lbs)
March	16,355.
April	16,965.
May	15,640.
June	14,070.
July	12,210.
August	8,965.

Andy—We had no actual areas where the feeding occurred. I would suggest that Anton answer this question rather than me. We had more loitering issues, some of which have been cured by the changes in Guadalupe Plaza Park. Of course, some of have just moved to the Bayou and along Harrisburg, too.

Diane Schenke,

President

3211 Harrisburg Blvd., Houston, TX 77003

Diane

See note I just sent to bob Eury . Can you answer this question for the east end?

Since the 'feeding ordinance ' was passed has the HDMD seen a measurable difference in the impact on downtown?
